RESPONSE TO ELECTION OF SPECIES REQUIREMENTDirector of the U.S. Patent and Trademark Office
Washington, D.C. 20231

Sir:

In reply to the Election of Species Requirement mailed August 2, 2001, Applicant provisionally elects Species II, Figures 9 and 10, with traverse. At least claim 1 reads on the elected species.

It is also respectfully submitted that the subject matter of all species is sufficiently related that a thorough search for the subject matter of any one species would encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of the entire application can be made without serious burden, the Examiner must examine it on the merits even though it includes claims to distinct or independent inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in order to avoid unnecessary delay and expense to Applicant and duplicative examination by the Patent Office.

Thus, withdrawal of the Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff
Registration No. 27,075

Eric D. Morehouse
